Enable organizations to design and engineer the delivery of healthcare leading to significant patient and business benefits.
THERE ARE NO PROBLEMS IN HEALTHCARE. ONLY SOLUTIONS.

- Facilitate key strategic and operational excellence leveraging Mayo Clinic best practices.
- Translate vision and value into actionable goals and measurable outcomes.
- Bring experience from diverse engagements in clinical practice, education, research and administration.
- Offer objective, innovative and integrative solutions.

“The care team treats the disease, and ME&C treats the systems to support the care team and patients.”

— Tarun M, Principal Business Analyst

“The group is a powerhouse of highly skilled individuals who execute their assignments with passion and precision to advance our organization.”

— Alissa C, Operations Manager
